Key Findings

Full period 2023–2024, all cities. Static notes: they do not change with the filters.

01 Bogotá records more transactions (4.377 vs. 4.123), but Ciudad de México concentrates more sales value (3.242,2 M vs. 2.770,3 M).

02 The gap comes from ticket size: the average sale value in Ciudad de México is 24,2 % higher (786.377 vs. 632.915).

03 Corredor drives 72,85 % of sales value but 87,81 % of commission revenue: its effective commission rate is 4,02 % vs. 1,50 % for Directo.

04 Casa leads the sales share in both cities (37,37 % in Bogotá, 37,17 % in Ciudad de México); the property mix is very similar across the two markets.
